

Booking Assessment / Housing Classification Scoring Method

In booking when adding an Assessment for an Inmate it will take several questions into consideration to come up with a score. Based on this score the system will indicate a housing level. This level can be overridden (with a recommended level) at any time. This is how the scoring determines MINIMUM, MEDIUM, and MAX

The Default Indicated Level = **MINIMUM**

The Indicated Custody level will be updated when you save the record. The Recommended is your override to the computer's scoring level.

The Factors below count for +1 for the score ranking

There is an exception with Detainers and Assaults that will be discussed at the end with scoring as they have special meaning with the inmate is classed as MINIMUM Level.

Scoring Method...

Survey Score = Total value of all 6 Dropbox Boxes on the Evaluation tab (A, B, C, D, E, F)

Inmate Offense / History Score = Total value the 1st 3 Dropbox Boxes on the Evaluation tab (A, B, C)

Primary Factors = 1 point for each box checked

Secondary Factors = 1 point for each box checked

Stability Factors = (deduct from the Survey Score **NOT** the History Score)

Score = Survey Score + Primary Factors + Secondary Factors - Stability Factors

Default Indicated Level = **MINIMUM**

If Survey Score < 6 and Detainers / Warrants **DO NOT** Exist = Level = MINIMUM

If Survey Score < 6 and Detainers / Warrants **DO** Exist = Level = MEDIUM

If Survey Score is between 6 and 10 (6, 7, 8, 9, 10) = Level = MEDIUM

If Survey Score is > 10 = Level = MAX

(More on next page)

If Level = **MINIMUM** And History of Assaults (1ST Tab) Checkbox is Checked Level = **MEDIUM**

If Inmate History Score > 6 = Level = **MAX** (means serious offense or offense history)

Note: If the ***user types in a Recommended Level*** (that is the answer regardless of score)
