

## CAD – Locution Fire

### Interface Setup

Interface for Locution Fire Station product.

There are only two parts for this interface.

#1. Add New Fire Station(s) to the Station Picklist

On Each Station, under the interface section, add the Interface Name and Connection Information

Ex: Interface = LOCUTION (required to be this exactly)

Ex: Interface Description = IP Address and Port # Of the Locution Listing Server

You will need to get with your Internal Network Group to Open needed firewall ports.
